## REQUIREMENTS

This particular program is designed for accomplished pianists who are currently pursuing their Bachelor's, Master's or D.M.A. degrees in Piano Performance. It is important to note that having proficient sight-reading and singing skills is a prerequisite for this program.

---

## WHEN TO ENROLL

To avoid any confusion between your old and new skills, it is highly recommended that you refrain from playing your current repertoire during the course. It's best to wait for a gap year, where you can focus on the retraining program with a calm mind and dedicate four hours a day to practicing.

Although it's possible to commence the retraining program while continuing your studies at a musical school, college, or conservatory, this may result in a slower, more challenging, and overwhelming learning process.

When you enroll in the program, all the necessary teaching materials will be provided to you
